

Safety and Personnel Management Consultation Services

24 Hour HAZWOPER

CATEGORY:

General Industry

COURSE DESCRIPTION:

HAZWOPER 24 Hour is required for employees visiting an Uncontrolled Hazardous Waste Operation mandated by the Government.

This course covers broad issues pertaining to the hazard recognition at work sites. OSHA has developed the HAZWOPER program to protect the workers working at hazardous sites and devised extensive regulations to ensure their safety and health. This course, while identifying different types of hazards, also suggests possible precautions and protective measures to reduce or eliminate hazards at the work place.

Note: Workers must have 24 hours of initial training and one day of supervised field experience before they are allowed to enter the site. The one day field experience under a trained, experienced supervisor is the responsibility of the student's employer or potential employer.

LEARNING OBJECTIVES:

- Understand the purpose of OSHA and its role in regulating occupational safety
- Use Site Characterization to establish problems that may exist in your workplace and measures that can be implemented to eliminate hazards
- Encourage the use of Material Safety Data sheets (MSDS) to identify and properly handle hazardous materials
- Familiarize yourself with materials, compounds and mixtures that may present flammable, explosive, chemical or radiological hazards
- Establish an effective Site Control Program to limit the risk of exposure to only those working in the hazardous work zone

TOPICS COVERED: This course covers topics included in 29 CFR 1910.120. Topics include protection against hazardous chemicals, elimination of hazardous chemicals, safety of workers and the environment, OSHA regulations.

- Introduction
- Regulation Overview
- Site Characterization
- Toxicology
- Hazard Recognition
- Chemical Awareness
- Radiological Hazards
- Respiratory Protection

- Personal Protective Equipment
- Site Control
- Decontamination
- Medical Surveillance
- Air Monitoring
- Confined Space Entry
- Emergency Response

This course has been designed for 24 hours of class time.

Quizzes - All quizzes must be passed with a 70% to proceed forward to the next lesson. Attendees must score an 80% to pass this course. Upon passing this course, you will receive a certificate of completion and wallet card.

Here at AEI Safety Services we strive to exceed the I.A.C.E.T. standard for continuing education. It is our goal to deliver the highest quality class available in the safety services market place. Our Industrial Hygiene CMs for this course have been approved by the A.B.I.H.
